The NSVC was established to ensure that every veteran (family member & caregiver) on the North Shore has access to the service they need when they need it.

Our objective is to be the informational glue that binds the North Shore Vet services and programs, and we'll provide a platform to collectively reach more veterans.

If you work with Veterans, or operate or represent a veterans support organization on the North Shore we encourage you to join our effort, attend our meetings and support our mission.
